Statement on Senior PSNI Officer Andy George

We act on behalf of senior PSNI officer Andy George.

Following an "outside remit" referral from PONI our client was referred for misconduct investigation in relation to a social media posting.

Today he was informed that PSNI internal misconduct proceedings initiated against him have been concluded and have determined that there was no misconduct.

Speaking on the news solicitor Kevin Winters said,

"We are pleased to see vindication for our client in this determination. However, we are disappointed to note that he will be the subject of so called 'management action' meaning he will have a conversation with his line manager. That discussion will include the issue of the posting allegedly stirring up division.

We don't think that is a proportionate out-working to the nature of the complaint made here. He absolutely rejects any such allegation. For now, Mr. George is satisfied that he has been cleared on formal misconduct proceedings "
